

By His Majesty's Authority.

Dr. BUTTERFIELD,
Of the City of **NORWICH,**
In the County of **NORFOLK.**

Who, after several Years travel, has obtained the
Art and Knowledge of curing most curable
Distempers, both in the Body and Eyes of Men,
Women and Children.

*Dr. Butterfield's infallible and approved PILLS for the
Stone and Gravel, and Ulcers in the Kidneys, and for
straining Urine in Men, Women and Children.*

WHICH have been found to be the most effectual
remedy yet discovered, for expelling the gravel
out of the kidneys, curing disorders in the reins, dis-
solving the small stones in the bladder to a slime, and
bringing it away without the least pain imaginable.
This will open the passage of the urine wonderfully.
Many, to their great joy and comfort, have been cured
(under God) by these pills. In short, they are the
most agreeable pills in the universe, and need no
further recommendation than trial.—Price 2s. the
box.

Dr.

Dr. Butterfield's Catholicon Honey Tablets; or, Universal Family Medicine; for destroying Worms in the Bodies of Men, Women and Children.

THESE tablets have been a great many years in practice, and have been tried in most cities and market-towns throughout Great-Britain; have performed many wonderful cures, brought away numbers of monstrous and different kinds of worms, and have cured many persons of very bad disorders, and of long standing, which many can witness. The tablets are the only physic yet known in any distemper where purging is required.

Of all the comforts of this temporal life, health is the most valuable; without which, the felicity of mankind, even the richest, is in a moment turned into gall; and had you seen one quarter of the dismal consequences of those vermin acting upon the human bodies, as I have, you would soon agree with me in the belief of what I do; that is, these destructive vermiculars have sent thousands of all ages to their long home, under the dominion of such a fever, or such a distemper; and as to children, I do declare, I could never make a speedy cure without a good worm medicine, which I have proved to some hundreds, to their great surprize, with these Honey Tablets.

So I leave to parents, how careful they ought to be of their children; especially as the epidemical distempers rage, such as the small-pox, measles, black and yellow jaundice, &c. &c. But had children two, three, or four doses of these Honey Tablets given at such times, by way of preparing the body before they fall down, they would get over them much sooner, and have a more kind sort than usual. It is the quality and quantity of matter which occasions so many deaths,
and

and dismal symptoms in this distemper, which may be observed every year in one part of England or other. Three or four remarks of worms, coming from the parts of human bodies, which I have been an eye-witness of, viz. Worms drop from the eyes like lice, from the nose like maggots, lungs are ulcerated, and in a deep consumption; the hearts of such as have died of confirmed poxes. I know two persons who were discharged out of an hospital as incurable, one had a tumour on the belly, the other in his groin: four days after their discharge, worms came from the said tumours. Worms voided by urine, four inches long, and a quarter of an inch broad, the persons bearing symptoms like the stone. That our skin is affected is manifest to all people: we daily see in such faces as are subject to heats and pimples, small white worms with black heads, which they squeeze out with their nails; and sometimes they appear out of faces very smooth; wherefore, I advise all persons to stop the progress of these vermin in time, and not stand dull spectators, while nature is worsted.

The Tablets are a certain cure for the ague, let it be ever so long standing, in men, women, or children, when the bark and all other medicines fail. They cure surfeits from hard drinking, also the heart-burn, and prevent vomiting and reaching in the morning, and give ease in a short time in the most violent and rack-ing pains of the cholic. These Tablets cleanse, purify and cause the free circulation of blood, when in a manner stagnated. They are highly serviceable to the female sex from the age of 14 to 20 years, also for obstructions at the grand period of life, which, two, three, or four doses will certainly cure. The Tablets enrich and sweeten the whole mass of blood, carry off
all

all gross, corrupt and putrid humours; create a fresh and healthy complexion in such as are afflicted with any worm-matter. Now I hope all impartial persons are satisfied, that the medicines which work upon such humours, will reach almost any distemper, if not too far gone, since corruption and putrefaction are the forerunners of all distempers, therefore no better physic can be taken for all ages, sexes, or constitutions, from infancy to old age. These Tablets, if taken twice a year by grown persons, they so cleanse the stomach, bowels and glands as to produce a good state of health, and by moderate use of them children will thrive more in one month, than they are observed to do in twelve.

There are many elderly people, when they return the bill, will cry, we have no children, without considering their own infirmities.—For instance, we have known some hundreds of people, from forty to sixty, seventy, eighty, and even ninety years of age, who have voided worms a yard and a half long.

And so pernicious are these vermin, there is scarce any age, sex, or constitution, but are subject to them, nor any part of us, but what they affect; for there are no humours but what they may putrify, one time or other, which putrid matter, contains a vital principal, apt for generation, produceth worms, which if not putrefaction, has certain seminals of seed within itself, as pernicious as worms can be, and causes the same diseases, as worms actually existent. But the Tablets destroy not only worms, but also all sorts of worm-matter. These Tablets are the best physic for mariners to take to sea with them, as they prevent all scurvical disorders from coming upon them. They
may

may be taken the hottest day in summer, or the coldest day in winter, requiring no confinement.

These Tablets are as pleasant as Sweetmeats, and no child will refuse them. They work gently by stool.

Price 1s. a paper, which contains eight Tablets, with a proper bill of directions.

General Rules for the Patient to know his Disease of those Vermin, called Worms.

BOT-WORMS, are in and near the fundament, they are white, and often rise up in the stomach, occasioning sudden dulness, pains in the head, grating of the teeth, unquiet sleep, faintness, fits, &c. Maw-worms, cause paleness in the face, itching in the nose, hollowness in the eyes, gnawing pains in the stomach especially in the morning, being desirous of fresh nourishment; these vermin have legs and joints, some forked tails, &c. Heart-worms, cause fevers, convulsions, fits, consumptions, shortness of breath, wasting and pining of the body, continual thirst, swelled bellies, white thick urine, sudden death is often caused by these worms. The Liver-worms, cause a nauseous breath, loathing of food, vomiting and spitting of blood, violent cholics and jaundice, they often gnaw holes in the liver, and make themselves nests. These are the most dangerous kind.

Dr. Butterfield's Imperial Eye-Water,

WHICH strengthens and comforts the eyes, preserves the sight, even to old age, restores the lost vigour of the eyes, that many who used spectacles several years before, have laid them aside, on application to this excellent eye-water, which repels corroding humours from the eyes, occasioned by colds, small-

either hard, soft, or bloody corns, in three or four times using, without pain or trouble. It is excellent for cuts or green wounds. Price 1s. the box.

The Tincture for the Scurvy in the Blood, a Distemper too common among the English.

THIS tincture rectifies the blood and juices, and takes out all spots, blotches, pimples, or itching of the blood; it is an absolute cure for the rheumatism, old aches, strains, or consumptions, if taken before the lungs are ulcerated, shortness of breath, coughs, phthysics, and all disorders of the breast and lungs: it is highly serviceable in lowness of spirits, either in men or women. Price 2s. the bottle.

Dr. Anderson's Original Scots Pills.

THEY far exceed all other purges in the world, both in restoring those who are sick, and preserving those who are well, cleansing and freeing the stomach and bowels of all impurities, causing a quick appetite and true digestion, and preserving health to old age, and are so well known and approved of by the most eminent physicians of all ranks, that no family should be without them. Price 1s. the box.

 *Pray keep this paper clean.*

N. B. No abatement will be made in the medicines (except to such persons who are disposed to buy them to sell them again) for ready money only.

The Doctor gives ready money for small phial bottles.

* * * Any of the above medicines may be had of the person who calls for this bill.
